Office Action Summary

RESTRICTION

1. Restriction to one of the following inventions is required under 35 U.S.C. 121:
 - I. Claims 1-15, drawn to a specific transducer retainer, classified in class 381, subclass 345.
 - II. Claims 16-23, drawn to a specific cover in a phone, classified in class 379, subclass 433.11.
 - III. Claims 24-25, drawn to a phone/device having various housing components, classified in class 379, subclass 433.01.
2. Inventions Groups I, II and III are related as combination and subcombination. Inventions in this relationship are distinct if it can be shown that (1) the combination as claimed does not require the particulars of the subcombination as claimed for patentability, and (2) that the subcombination has utility by itself or in other combinations (MPEP § 806.05(c)). In the instant case, the combination as claimed does not require the particulars of the subcombination as claimed because Group I requires a specific design of the retainer, such as the lugs, which is not required in Groups II or III. In Group II, it requires a specific design of the cover, such as the slit, which is not required in Groups I or III; and in Group III, it involves a device/phone having some housing components which does not require the specific design of the retainer and the cover in Groups I and II respectively. The subcombination has separate utility such as in phone cover or computer/PDA devices.

3. Applicant is advised that the reply to this requirement to be complete must include an election of the invention to be examined even though the requirement be traversed (37 CFR 1.143).

4. A telephone call was made to Mr. Alfred A. Fressola on ²⁵~~06~~-27-04 to request an oral election to the above restriction requirement, since Mr. Fressola needs to consult with his client in a foreign country, it is agreed that a written restriction should be sent.

5. Any inquiry concerning this communication or earlier communications from the examiner should be directed to Jack Chiang whose telephone number is 703-305-4728. The examiner can normally be reached on Mon.-Fri. from 8:00 to 6:30.

If attempts to reach the examiner by telephone are unsuccessful, the examiner's supervisor, Ahmad Matar, can be reached on 703-305-4731. The fax phone number for the organization where this application or proceeding is assigned is 703-872-9306.
